KUNTICHA BOONSONG

Cloud / AWS Enthusiast - IT Innovation Student

kunticha.boonsong@gmail.com | +66 93-190-4491 | github.com/KuntichaBoonsong |
Bangkok, Thailand

ABOUT ME

4th-year IT Innovation student (Bangkok University) building hands-on experience with cloud and serverless architecture on AWS. Built and deployed a serverless AI chatbot using AWS Lambda, API Gateway, S3, and DynamoDB. Complement cloud fundamentals with real product experience - system design, business analysis, and front-end development - from a corporate capstone project (1Moby) and two national bootcamps (ETDA, MTeX).
Looking for a Cloud Engineer / Cloud Support internship or junior role to build deeper AWS and infrastructure expertise.

SKILL

TECHNICAL SKILL

- AWS: Lambda, API Gateway, S3, DynamoDB
- Serverless Architecture
- HTML, CSS, JavaScript
- Next.js, TypeScript (basic)
- Business Analysis & System Design
- Microsoft Office (Visio, Word, Excel)

SOFT SKILL

- Teamwork & Collaboration
- Communication
- Problem-solving
- Time Management
- Critical Thinking
- Adaptability

LANGUAGES

- English - Elementary (B1)
- Thai (Native)

EXPERIENCE

One Moby Senior Project — System Design & Front-End 2026 - present

Team Highfive · University capstone project with a real corporate client

• Partnered directly with 1Moby to design an end-to-end Competency Assessment system: 180° evaluation, gap analysis, auto-generated Individual Development Plans (IDP), and a gamified LMS module.
• Designed the full system architecture flow (assessment → gap analysis → IDP → LMS → rewards) and contributed to front-end implementation.
• Conducted UX research (personas, journey mapping) to ground the system design in real user needs.

ETDA Bootcamp Empowering Digital Citizens to Build Digital Trust 2026

Team One Day miracle · 5-day national bootcamp

• Selected to attend an intensive 5-day program on Digital ID, Verifiable Credentials (VC), and Digital Document Wallets.
• Applied Verifiable Credential and Digital Trust concepts to design a working use-case prototype, presented to a national panel of judges.

MTeX Young Talent Bootcamp | Hackathon 2026

Team BUITI x BUSEM · National competition, 100+ teams

• Selected as one of 7 finalist teams nationwide (from 100+ applicants) to pitch at the Final Pitching round, TIJ Bangkok.
• Delivered a complete business and marketing strategy pitch within a 2-day hackathon timeframe under high time pressure.

Winstaller - Web on Wordpress 2026

group / Academic Project | Backend Developer

- Developed and maintained the system on WordPress hosting (InfinityFree); designed the competition data structure using CPT UI and ACF, along with a role-based access system (Ultimate Member, User Role Editor)
- Maintained system security and backups using Wordfence, WP Activity Log, and UpdraftPlus

EXPERIENCE

Chat Pop - Serverless AI Chatbot on AWS 2025

group / Academic Project

• Built a serverless AI chatbot: front-end hosted on Amazon S3, backend powered by AWS Lambda and API Gateway.
• Integrated the Groq API for low-latency AI responses and Amazon DynamoDB for scalable chat-session storage.
• Handled the full deployment path end-to-end -- front-end hosting, serverless functions, API routing, and NoSQL data storage - without a managed server.

Ocean Run - Running Event Registration Website 2025

Personal / Academic Project

• Designed and developed a responsive event-registration website front-end using HTML, CSS, and JavaScript.
• Planned the full site layout and built the admin management page, prioritizing clean, user-friendly UI/UX across device sizes.

Science Ambassador, 20th Cohort 2025

YTSA (Young Thai Science Ambassador) - NSM Thailand

• Selected as a Science Ambassador; conducted an independent data-analysis project on daily carbon emissions within university settings.
• Communicated findings on overlooked emission sources to raise awareness, strengthening analytical thinking and science-communication skills.

Vice President - IT Branch & CSDS Branch 2024 - 2025

Faculty of Information Technology Committee, Bangkok University

• Represented the IT faculty in planning and organizing technology-related activities and events at faculty and university level throughout the year.
• Coordinated across student teams and faculty staff, strengthening organizational and stakeholder-communication skills.

ACADEMIC HISTORY

Bangkok University - B.Sc. Information Technology and Innovation 2023 -Present

GPA: 3.29

Wat Nuannoradit School - Chinese and English Language Arts 2019 - 2023

GPA: 3.53

CERTIFICATIONS

- Marketing Technology Expert Certification – Foundation | 2026
- Fundamentals of Quantum Algorithms — IBM | 2025
- Young Thai Science Ambassador, 20th Cohort | 2025
