ABOUT ME

A 4th-year IT Innovation student with hands-on experience deploying a serverless AI chatbot on AWS (Lambda, API Gateway, S3, DynamoDB) through a university group project. Coursework experience with Linux, virtual machines, and Docker, along with experience maintaining system security and backups on a WordPress project. Now seeking a DevOps / Cloud Engineer internship to learn from experienced professionals and build hands-on skills in deployment, containers, and CI/CD.

TECHNICAL SKILL

- OS & Infrastructure - Linux, Virtual Machines, Serverless Architecture
- Cloud - AWS (Lambda, API Gateway, S3, DynamoDB)
- Containers - Docker
- Security & Backup - Wordfence, UpdraftPlus

SOFT SKILL

- Teamwork & Collaboration
- Communication , Problem-solving
- Time Management
- Critical Thinking , Adaptability

LANGUAGE

- English (Speexx B1)
- Thai (Native)

PROJECTS

Winstaller - Web on Wordpress 2026

group / Academic Project | Backend Developer

- Developed and maintained the system on WordPress hosting (InfinityFree) designed the competition data structure using CPT UI and ACF, along with a role-based access system (Ultimate Member, User Role Editor).
- Maintained system security and backups using Wordfence, WP Activity Log, and UpdraftPlus.

Chat Pop - Serverless AI Chatbot on AWS 2025

group / Academic Project

- Built a serverless AI chatbot on AWS: front-end on S3, backend on Lambda and API Gateway.
- Integrated Groq API for fast responses and DynamoDB for chat-session storage.
- Managed the full serverless deployment end-to-end, with no managed server.

EXPERIENCE

One Moby Senior Project - System Design & Front-End 2026 - present

Group Project · University capstone project with a real corporate client

- Designed a Competency Assessment system with 1Moby — 180° evaluation, gap analysis, auto-generated IDPs, gamified LMS
- Contributed to system architecture and front-end development and Conducted UX research to inform design

ETDA Bootcamp - Empowering Digital Citizens to Build Digital Trust 2026

Team One Day miracle · 5-day national bootcamp

- Attended a national program on Digital ID and Verifiable Credentials; applied VC/Digital Trust concepts to design and present a working prototype.

Vice President - IT Branch & CSDS Branch 2024 - 2025

Faculty of Information Technology Committee, Bangkok University

- Organized faculty-wide tech activities and events, strengthening organizational and communication skills.

EDUCATION

2023 -present

- **School of Information Technology and innovation - Bangkok University**
- **B.Sc. Information Technology**
- **GPA: 3.29**
- **Expected Graduation : 2027**
